Name: _____ Date: _____

There are a few key foundational ideas in human psychology you need to understand BEFORE learning all the tactics around getting the first interview. Here they are.

If you understand these 14 psychological concepts, you'll be much more set to make better decisions related to applications (without having to rely on someone else).

Explain in a few sentences the definition of these concepts along with a personal example.

1. Deindividuation
2. Psychological Heuristics
3. Halo Effect
4. Mere Exposure Effect
5. Representativeness Heuristic
6. Social Proof
7. Foot-in-the-Door Technique
8. Reciprocity

9. False Consensus Effect

10. Benjamin Franklin Effect

11. Scramble & Reattempt Principle

12. Maslow's Hammer

13. Learned Helplessness

14. In-Group Bias

Conclusion: Ask yourself, which one of these resonate the most with you? Can you start to implement any of them in your decision-making and daily experience? Explain your answer in 2-3 sentences.
